

KASJAN HINC

SOFTWARE DEVELOPER

ABOUT

I am an upcoming Software Developer. For me learning new technologies and integrating them into UI systems is what made me go into this industry. Orderliness and creativity are some of my traits. For my future I want to be recognised highly for my skills in the industry. As of 2020, I decided to commit a career change and follow my passion into software development.

SKILLS

- HTML, CSS and JavaScript.
- Node, React, Express, Mongoose and MongoDB.
- Responsive web design, familiar with the Bootstrap framework
- Python, Flask

EDUCATION

General Assembly Software Engineering Bootcamp

Sep 2020 - Dec 2020

I took part in an immersive 12 week software engineering bootcamp as part of my career change. The syllabus consisted of an in depth look into full stack development.

- A in depth familiarisation of HTML, CSS and JavaScript.
- Learning to use Git and GitHub effectively when working on group projects.
- Understanding newest techniques in the industry when creating web applications such as React, Express, Mongoose and MongoDB.
- An in depth look at back end, using and creating multiple API's to create web applications from A-Z.

Alexandra Park Sixth Form

A Levels | 2013 - 2015

IT, History, Polish, Applied Science, Classics

PROFESSIONAL EXPERIENCE

Vintage Automotive Parts Dealer

Self Employed | Sep 2019 - Sep 2020

- Online re-selling of rare and in demand vintage car parts and accessories. Learning to source stock from all over the world, collaborating with people of different cultures and languages. Gained good knowledge of profit margins and how to provide a great customer service.

Truck Driver

PRESTO Dystrybucja sp. z o.o. | Mar 2019 - Sep 2019

- Alcoholic beverage distribution to major tourist destinations around Northern Poland. Working with people from all walks of life, I learned to meet harsh deadlines and resolve problems fast.
